08

Why Magentoguys

Our promise & delivery model

CATEGORY 01

AI Extensions

AI Chatbot

Automates customer queries with human-like, always-on responses.

Frontend AI Chatbot

Storefront-embedded assistant that guides shoppers toward purchase.

AI Content Builder

Generates SEO-ready product and category descriptions instantly.

LLMs TXT Generator

Prepares your store's content for AI search and discovery engines.

CATEGORY 02

Marketing & Growth Extensions

TikTok Marketing Suite

Sync catalog and run shoppable campaigns on TikTok.

Abandoned Cart Recovery

Automated follow-ups that win back lost sales.

Daily Deals

Time-boxed promotions with built-in urgency countdowns.

Newsletter Popup

Converts visitors into subscribers with targeted popups.

Promo Banners

Rule-based banners for sales, launches, and events.

SMS Notifications

Order and promotional updates delivered straight to mobile.

CATEGORY 03

SEO & Analytics Extensions

Canonical URL

Eliminates duplicate-content penalties across catalog pages.

XML Sitemap

Keeps search engines crawling fresh, accurate site data.

Open Graph Tags

Richer, click-worthy previews when links are shared socially.

Google Customer Reviews

Verified ratings that build trust at the point of sale.

GA4 Advanced Analytics

Deeper funnel and revenue reporting inside GA4.

Google Tag Manager

Centralized, code-free tag and pixel management.

CATEGORY 04

Catalog & Merchandising Extensions

Product Labels

Eye-catching badges for new, sale, or featured items.

Tier Pricing

Quantity-based pricing tiers that reward larger orders.

Custom Pricing

Customer- or group-specific pricing rules, automated.

Hide Price

Replaces pricing with a quote-request flow for B2B.

Free Gift Promotions

Auto-adds complimentary items based on cart rules.

Import / Export Suite

Bulk catalog, price, and inventory updates in minutes.

CATEGORY 05

Order & Checkout Extensions

One Step Checkout

Single-page checkout that lifts conversion rates.

Custom Checkout Fields

Capture your preferred order details

Purchase Order

B2B ordering with PO numbers and approval workflows.

Coupon Error Messaging

Clear, friendly messages when a coupon can't be applied.

Order History Enhancements

A cleaner, more actionable customer order dashboard.

Force Login

Requires account sign-in before browsing or checkout.

CATEGORY 06

Customer Support & Engagement

Live Chat

Real-time support widget embedded on every storefront page.

Helpdesk

Structured ticketing to track and resolve customer issues.

WhatsApp Contact Button

One-tap WhatsApp access from any product or page.

WhatsApp Share

Lets shoppers share products directly via WhatsApp.

Category FAQ

Answers common questions right where shoppers browse.

Product Q&A

Community-style Q&A that builds buyer confidence.

CATEGORY 07

Compliance & Store Experience

GDPR Compliance

Consent management aligned with data-privacy regulation.

Age Verification Popup

Gate restricted products behind an age-check prompt.

Store Locator

Interactive map guiding customers to physical locations.

Custom Form Builder

Drag-and-drop forms for inquiries, registrations, and more.

Custom Product Tabs

Organize specs, guides, and content on product pages.

Notification Bar

Sitewide announcements for shipping, sales, or alerts.

OUR PROMISE

Why Magentoguys

Fast, Clean Integration

Every extension installs cleanly against core Magento 2, without conflicting overrides.

Built for Performance

Lightweight code, optimized queries, and Hyvä-ready compatibility across the board.

Works Together

A cohesive suite designed to be combined — not a patchwork of one-off plugins.

80+ premium modules • Adobe & Hyvä partner-built • Trusted by ecommerce brands worldwide

LET'S BUILD

Ready to power up your Magento store?

We build Custom Extensions as well!
